Managing Performance Improvement - Michael D. Tovey 2015-05-20 Increasing global competition, combined with shrinking budgets, are forcing managers to find new ways of operating. To compete successfully, companies must now use technology and resources (particularly human resources) to their full potential. Much of the research in the area of performance management has suggested that, while it has great potential to contribute dramatically to the bottom line, it rarely works. The third edition of Managing Performance Improvement looks at why performance systems fail, and explores the tools and techniques to overcome this failure. This best-selling text provides practical, specific advice to managers and students enabling them to plan for, and then manage, performance improvement.

Libraries in the Twenty-First Century - Stuart J. Ferguson 2007-05-31 Libraries in the Twenty-First Century brings together library educators and practitioners to provide a scholarly yet accessible overview of library and information management and the challenges that the twenty-first century offers the information profession. The papers in this collection illustrate the changing nature of the library as it evolves into its twenty-first century manifestation. The national libraries of Australia and New Zealand, for instance, have harnessed information and communication technologies to create institutions that are far more national, even democratic, in terms of delivery of service and sheer presence than their print-based predecessors. Aimed at practitioners and students alike, this publication covers specific types of library and information agencies, discusses specific aspects of library and information management and places developments in library and information services in a number of broad contexts: socio-economic, ethico-legal, historical and educational.
